

Introducing.....

“THE AUTO VACCINE” Revolutionary NEW Technology

Auto Vaccine's new technology facilitates the use of the strongest yet safest biocide known to man. It safely and easily eliminates any odor (mild or severe) including cigarette and cigar smoke, pet urine, vomit, sour milk, mold, mildew and MORE! It is EPA approved safe for people, pets and the environment.

Auto Vaccine is a revolutionary chemical breakthrough product that utilizes Chlorine Dioxide (ClO₂). Please note that ClO₂ is neither chlorine or bleach. ClO₂ is a powerful broad-spectrum biocide that controls, inhibits and destroys bacteria, virus, spore formers, fungi & algae.

The Auto Vaccine actually gets rid of the odor, unlike other products that contain just masking agents. It's easy (and safe) to use - just add water, place the product in vehicle's cup holder and let it go to work!

The Auto Vaccine decontaminates, disinfects and completely deodorizes your vehicle's interior in just a few hours or overnight. Air and light will rapidly decompose any leftover chlorine smell.

Your price from IADA:

- 1 kit - \$ 20.00 each
- 2 kits - \$18.50 each
